Glossary

last modified: Sun May 27 11:58:28 2012

A

AGB

Agile Governance Board

AICD

Automatic Implantable Cardioverter Defibrillator

AHP

Allied Health Professional In Client User Of Latitude

APM

Advanced Patient Management

ATLAS

Intermittent Pacing

ACUITY

Left Ventricle Lead

AMI

Acute Myocardial Infarction

AVHB

Atrioventricular Herat Block

ANZ

Australia And New Zealand

ACR

Athena Change Request

AU

Australia Deployment Which Supports Australia And New Zealand

ARS

Application Requirement Specification
Application Research Studies

C

CPT

Crm Portfolio Team

CCB

Change Control Board

COGS

Cost Of Goods Sold

COMMUNICATOR

Device In Patients Home Which Communicates With The Pg And Transmits
Status Information Over A Phone Line Able To Communicate Wirelessly To
Weigh Scale And Blood Pressure Cuff Systems

CRT-D

Cardiac Resynchronization Therapy Defibrillator

CRT

Cardiac Resynchronization Therapy

CMS

Compensation Management System

CRM

Cardiac Rhythm Management

CSC

Customer Support Center

CAPA

Corrective Action Preventive Action

COA

Course Of Action

CARS

Clinical Application Research Studies

CA

Canada Deployment Which Supports Canada

CV

Cardiovascular

CDC

China Delivery Center

CDT

Cardiac Device Telematics

CRT-P

Cardiac Resynchronization Therapy Pacemaker Crt-p

COGNIS

Cardiac Resynchronization Therapy Defibrillator Crt-d

CLOC

Commented Lines Of Code

CIS

Clinical Information System

CFR

Code Of Federal Regulations

B

BASELINE

An Approved Revision Of A Document Or Source File From Which
Subsequent Changes Can Be Made

BOM

Bill Of Materials

BRANCH

Branches Are Spawned From Trunk Or Other Branch In Order To Concentrate On Stabilizing The Tree For Release Or To Start Implementing Long-term Possibly Throw Away

BYD

Build Your Dream Company Manufacturing Sentina

BRADY

Implantable Cardiac Pulse Generators Pacemaker For Abnormally Slow Heart Rate Usually Defined As A Rate Less Than 60 Bpm Or A Rate That Is Too Slow To Be Physiologically Appropriate For A Person And Or An Activity Bradycardia Or Bradyarrhythmia Cardiac Resynchronization Therapy Crt With Leads In The Right Atrium And Right Ventricle

BSC

Boston Scientific Corp

BBB

Bundle Branch Block

BAT

Build Acceptance Test

BPB

Business Process Board

BPT

Business Planning Team

BAA

Business Associate Agreement

E

EOL

End Of Life

EOS

End Of Service

EGM

Electro Gram Internal Lead Signals

EFR

Equipment For Review

EU

European Union - Europe Deployment Which Supports 15 European Countries

EDP

Event Driven Processing

EMR

Electronic Medical Record

EAI

Enterprise Application Integration

ESD

Electrostatic Discharge

EASYTRAK

Left Ventricle Lead

D

DRC

Design Review C

DBA

Database Administrator

DES

Drug-eluting Stent

DVT

Design Verification Test

DIOH

Inventory System

DSO

Days Held Outstanding

DOS

Design Output Specification

DOP

Detail Operating Procedures

DRY RUN

Informal Round Of Testing To Cleanup Issues In Protocols Tests

DEV

Development

DB

Data Base

DPO

Days Payable Outstanding

DR

Data Request

DAO

Data Access Object

DAT

Design Analysis Testing

DHF

Design History File

DCF

Data Collection Failure

G

GTR

> General Technical Requirements

GTMS

> Guidant Training Management System

GDC

> General Design Constraints

F

FDA

> Food And Drug Administration

FHV

> Follow-up History View

FAC

> Field Action Committee

FORMAL

> Formal Round Of Testing Before The Product Is Implemented

I

INGENIO

New Pacemaker Rf Enabled

IDC

India Delivery Center Accenture

IBP

Integrated Business Plan

ICD

Implantable Cardioverter Defibrillator

INSIGNIA

Legacy Pacemaker

H

HRA

Hazard Risk Analysis

HERCULES

Text Editor For Creating Editing Xml Protocols And Generating
Python-coded Test Protocols For Gtest

HL7

Health Level 7 Is An Ansi-recognized Standards Writing Organization For
Medical Informatics

HV

High Voltage

HEART FAILURE

> Situation When The Heart Is Not Able To Deliver Enough Blood At Normal Pressures Toe Meet The Body Metabolic Demands - The Pg Is Always Pacing With Leads In The Right Atrium Right Ventricle And Left Ventricles To Maintain Proper Rhythm Across Heart

HIPAA

> Health Insurance Portability And Accountability Act

K

KMS

> Key Management System

KDPD

> Knowledge Driven Product Development

J

JIRA

> Scr Tracking System

M

MIG

> Master Image Generation

MACHSIM

Multichamber Advanced Capability Heart Simulator - Heart Simulator That Connects To A Pg

MDDS

Medical Device Data System

L

LPI

Latitude Paceart Integration Paceart Is Medtronics App Which Consolidates Data From St Jude Medtronic And Bsc In A Clinic

LPA

Latitude Performance Assurance

LATITUDE

Patient Management System External Instrumentation

LDS

Lead Delivery Systems Catheters

LQTS

Long Qt Interval Syndrome Congenital Or Acquired

LBBB

Left Bundle Branch Block

LCS

Latitude Customer Support

LEADS

Insulated Wire Used To Connect The Pg To The Cardiac Tissue Transmits Energy To The Myocardium And Relays Signals Back To The Pg Sensing Circuit

LAFB

Left Anterior Fascicular Block

LOC

Lines Of Code Including White Space

LPFB

Left Posterior Fascicular Block

O

OTHER BSC

Implantable Cardiac Pacing And Defibrillation Leads Stents And Other Therapies

OUS

Outside United States

N

NCLOC

Non-commented Lines Of Code Only Lines Of Executable Code

NGP

New Generation Programmer

NA

North America

Q

QTP

Mercury Quick Test Professional - Automated Test Tool

P

PII

Patient Initiated Interrogation

PRA

Product Release Approval

PIB

Project Investment Board

PID

Patient Identifier

PRS

Programmer Requirements Specification

PADR

Performance Achievement And Development Review

PHI

Protected Health Information

PROTOCOL

One Or More Tests That Are Meant To Run During Actual Testing

PT

Patient

PLE

Product Line Engineering

PA

Pulmonary Artery

PG

Pulse Generator

PKI

Public Key Infrastructure Digital Certificates Certificate Authorities And Other Registration Authorities That Authenticate Each Party Involved In An Electronic Transaction

PRM

Programmer Recorder Monitor

PUTTY

Tool To Connect To A Unix Server Thru A Pc

PAYLOAD

Xml Representation Of Patient Data

PEI

Patient Equipment Information

PEC

Product Evaluation Committee

PMA

Pre-market Approval

PDP

Product Development Program

PDM

Product Data Management

PLM

Product Line Model Also Called Product Line Engineering

PROMUS

Coronary Stent System - Third-generation Drug-eluting Stent Des
Technology

PVCS VERSION MANAGER

Program Version Control System

PRECISIONPLUS

Pain Management Spinal Cord Stimulation System

PPC

Product Performance Committee

PFR

Patients For Review Main Page In Latitude

PVCS TRACKER

Tool Used To Track And Manage Scrs Drs

PROGRAMMER

Device Used In Clinic To Read And Program The Pg

S

SYSDVT

System Design Verification Test

SAM

System Asset Manager

SAS

Supplemental Application Server - Earlier Name Given To Ras

SAP

Systems Applications And Products

SVT

Supraventricular Tachycardia

SYSTEM

> System

SCD

> Sudden Cardiac Death

SCR

> System Change Request

SSO

> Single Sign-on

SMR

> Software Maintenance Release

SEP

> System Evaluation Plan

SRA

> Safety Risk Analysis

SRD

> System Research Device

SRS

> Software Requirements Specification

SYSDAT

> System Design Analysis Testing

SWO

Special Work Order

SOP

Standard Operating Procedures

SOS

System Of Systems Also Scrum Of Scrums

SCM

Software Configuration Management

R

RAPID

Recommend Agree Perform Input Decide

RF

Radio Frequency

RAS

Regulated Application Server

RACI

Responsibility Accountable Consulted Informed

RGB

Rtc Governance Board

ROM

Rough Order Of Magnitude

RTR

Real Time Review

REA

Ripple Effect Analysis

RDM

Remote Device Management

RBBB

Right Bundle Branch Block

RAPIDO

Lead Guiding Catheter System

RTC

Rational Team Concert

RED ALERT

Xml Representation Of Patient Data Who Has A Warning Or Alert

RELIANCE G

Icd Lead Reliance Reliance S Reliance Ez Reliance Sez

RRP OR URRP

Raw Register Programmer

RASDVT

Sub-system Design Verification Test Of Ras Tests Subsystem Requirements Art

U

URL

Uniform Resource Locater

UVO

User Visible Observation

UEMR

Universal Electronic Medical Records

UP

User Parameter

US

Deployment Which Support The United States

UIS

User Interface Specification

UIT

Unit And Integration Testing

UC

Use Case Form Of Requirements

T

TEST

Qtp Script For The Protocol

TAXUS

Drug-eluting Stent Des Technology

TZM

Time Zone Management

TWIKI

Website Contains All The Project Related Data

TTM

Telemetry Test Module

TELIGEN

Implantable Cardioverter Defibrillator Icd

TDP

Technology Development Program

TRR

Test Readiness Review

TMS

Traceability Management System

TOAD

Sql Editor Used To Query Database

TACHY

A Pathologic Or Physiologic Rapid Heart Rate Typically Greater Than 100 Bpm Tachycardia High Voltage Pulse Generator Hvpg Implantable Cardiac Defibrillators Icd With Leads In The Right Atrium And Right Ventricle

W

WAS

Web Application Server

WASDVT

Sub-system Design Verification Test Of Was

WEBDAV

Web-based Distributed Authoring And Versioning

WINDCHILL

System For Managing Documents Peer Reviews

V

VALIDATION

Proves That The Device System Design Specifications Meet Defined User Needs And Intended Uses

V&SU

Validation And Scale-up

VERIFICATION

Confirms The Device System Design Meets Design Input Requirements

VNC

Virtual Network Computing

VOB

Voice Of The Business

VOC

Voice Of The Customer

VT

Ventricular Tachycardia

V&V

Verification And Validation

X

XML

Extensible Markup Language

XP

Extreme Programming
